

Resources for children who wander:

AWAARE

AWAARE (Autism Wandering Awareness Alerts Education), was launched by a cooperation of six major autism advocacy groups to increase public understanding of autism-related wandering and reduce the number of fatalities associated with wandering. AWAARE provides safety information, safety guides, and resources to ensure you keep your child safe.

Project Lifesaver

Project Lifesaver provides technology and education dedicated to improving safe outcomes for wandering children and adults. From their mission statement: "Project Lifesaver develops public outreach programs to educate others about the issue of wandering, and they constantly work toward developing public policy and effective law enforcement response to help save lives and bring loved ones home." <http://www.projectlifesaver.org/>

Tattoos With Purpose

Starting with the least advanced method but definitely one of the best and least expensive ways of keeping your child safe is Tattoos With a Purpose. Lost and Found Temporary Tattoos are a unique way to help ensure if your child is lost they will be found. Whether you are going to an event where there will be large crowds or you live in an urban area the Temporary Tattoos can help if your child wanders. <http://www.tattooswithapurpose.com/>

EmFinders

EmFinders provides a secure band that is worn 24/7. If a child becomes lost, the registered caregiver calls local law enforcement to file a missing person's report and then calls EmFinders to request remote device activation. Once activated, the band dials 911, provides a message on behalf of the child, and is responded to in the same manner as any other 911 call involving a person in need of emergency assistance. <http://www.asdatoz.com/clear/Emfinders.html>

Lok8u

Nu.m8 created by Lok8u Combines GPS Technology and cell ID technology to locate a missing person to within 10 feet. A child wears a device that doubles as a wrist watch that comes in an assortment of different colors. The 'Safe Zone' feature allows you to easily set your own defined area by time and day. An immediate alert is sent via Text and email to inform you if your child strays outside this area. <http://www.lok8u.com/>

Amber Alert GPS

Designed to work for all children Amber Alert GPS can be especially helpful for children with autism. Amber Alert GPS is about the size of an Oreo cookie. You can put it in your child's bag or you can purchase an arm ankle band to attach to your child. The device uses a combination of GPS and GSM (cell phone technologies) so anywhere your cell phone or a GPS system works the device will work. <http://www.amberalertgps.com/>

Safety Tat

Our proven, award-winning temp-tattoo and labeling solutions not only provide a fun level of security for your little ones, but peace of mind for Moms and Dads as well. And SafetyTat offers a wide range of flexible products to fit your need for literally any occasion. Why leave your child's safety to chance? <http://safetytat.com/>

Safety Net by Lo-Jack

SafetyNet™ technology helps public safety agencies quickly find and bring your loved ones home, providing you with additional protection and peace of mind to keep your loved one safe. When a child goes missing Safety Net works with agencies (usually local fire and police departments) that are trained in using Safety Net to search and rescue a missing child. <https://safetynettracking.com/>

AngelSense

Angelsense provides a GPS and voice monitoring solution to keep children with special needs safe and well cared-for. The solution includes a wearable GPS device - designed to address sensory issues and a friendly app based on smart analytics. Parents use this product to oversee their children daily routine in real time, listen in to make sure they are treated well, get alerts for location changes, locate lost child with live updates, and view pictures of visited locations. www.angelsense.com

FiLIP 2

The FiLIP 2 is a wrist watch, GPS locator, and cell phone that works with an accompanying iOS or Android application. Its modern, light-weight, water-resistant design makes it a top choice in the children's wearables market. FiLIP Technology released this new model in September 2014, making some significant improvements to the original design that make the device much more comfortable to wear on small wrists. <http://www.myfilip.com/about-filip/>

My Buddy Tag

Another wearable children's safety device that utilizes Bluetooth is My Buddy Tag. The My Buddy Tag is an affordable option for budget-conscious parents who want a safety backup plan. It also has a unique feature that alerts parents when the wristband is submerged in water for 5 consecutive seconds. Willie Wu, creator of My Buddy Tag, had this to say: "My Buddy Tag helps prevent accidental drowning. There is no other device out there can also alert you when your child accidentally falls into a pool or lake."

Guardian Lock

4.) Guardian Lock

The Guardian Lock is a portable lock you can use on any door – and you can take it with you when you travel. This lock is difficult for even our most talented little escape artists to get through. It took a few minutes for me to figure out how to use it myself! Watch this YouTube video for a demonstration. Guardian Lock is available online for \$16.95.
