## The first of many iterations of a logic model

- Logic models provide a visual representation of the problem, the strategies to address the problem, and the inputs, outputs, and effect of those strategies on the problem.

Key Drivers

Strategies

(Global) Result: Resilient children & families, free from adverse childhood experiences

SMART Target: XX (%/#) more stable families

Vulnerable Populations: Homeless Incarcerated Immigrant

Equitable access to needed resources

Knowledge and skill development

Ability to live affordably

Transportation

Community Hubs

Collaborative Funding Opportunities

Integrated and Comprehensive Services

Community Participation

Resource Connections

Business-Community Engagement

Educational Opportunities

Cultural Assets

Life Skills

Financial Self-Sufficiency

Tenant-Landlord Relations

Affordable and Accessible Childcare

Strategies adopted should be culturally appropriate and multi-generational for ALL families
